10 September 2019

Dear Parents/Guardians

Re: Year 10 and 11 – **EzyScience online subscription**

I am excited to be writing to you regarding the introduction of a new online tool, which the Science Department will be using to further support your child's progress through this academic year: EzyScience.

EzyScience provides:

- GCSE video tutorials on each area of the science curriculum.
- Automated homework activities.
- Bespoke feedback videos to homework activities.

Should your child not have internet access at home, they can coordinate with their class teacher to use school computers to access the activities.

GDPR Disclosure of information: Your child's school email, name and class will be shared with EzyScience. EzyScience do not disclose information about identifiable individuals to their advertisers but may provide them with aggregate information about their users. If you do not wish for your child to be registered with EzyScience please email me (jturner@esherhigh.surrey.sch.uk) by Friday 13 September.

The system will 'go live' on Monday 16 September. We would appreciate your support in encouraging your child to use EzyScience.

Yours faithfully

J Turner

Miss Jude Turner
Head of Science
