Dear Parents/Guardians

Re: HegartyMaths.com Home Learning Programme

The purpose of this letter is to inform you about an exciting home learning platform, HegartyMaths.com that we are using this year.

Students are currently receiving an in-class demonstration to enable them to complete a weekly task comprised of two parts:

- Watching and taking detailed notes in their red Hegarty book from the video
- Completing a short 5-10 question quiz that follows, showing full workings in their red Hegarty book

How can I help?

We encourage you to ask your child what they have learnt each day at school and to take an interest in their Hegarty home learning. By explaining their process used to arrive at an answer, they will increase their fluency and understanding.

Support Workshops

If your child is struggling to gain access or complete the work, there will be weekly afterschool workshops. Our department will be on-hand to support them in ensuring they are making the best progress possible. These will take place on a Tuesday and a Thursday between 3-4pm in room MIT (Music Technology).

If you require any further information, please contact me.

Yours faithfully

D Emery
