Head of School : Mr A King

6 May 2022

Dear Parents/Guardians

The school has returned to learning as normal following the events of last week. I know that there are some who still want more detail or wanted to know sooner. Please know that we shared all information that the police have allowed us in the time frame they allowed.

With a smooth return to normal lesson last Tuesday, we now have Year 11 in their final stages of preparation for their summer GCSE exams. With some practical assessments being finished this week and last, it is really getting to the business end of their time at school with us. If there is anything more we can do as a school to support your child, please do let us know. Mr Powley (Head of Y11) and the tutor team will be happy to help. If it is a subject issue, please contact the Head of Department as soon as possible ([staff contact page](#)).

We are well on the way to planning our academic year for September, how time flies! I have one important area of planning to gather your feedback on – this is for Parents' Evening. If you could please add your views using this very short (2 question) [survey](#). We will then use this to help how we shape the calendar for next year.

Sincerely

Mr A King
Head of School
